Agenda

1. **existent Carrier Tape using raw material (PS)**
2. **New carrier tape using raw material(PS)**
3. **New carrier tape using raw material (PET),(p.s.: we will select this solution to package what the PCN16002 mentioned.)**
4. **summarization**

1. existent Carrier Tape using raw material (PS)

2. New carrier tape using raw material(PS)

3. New carrier tape using raw material (PET)

4. summarization

Summary:

We will launch the 3rd solution as PCN16002 mentioned since

1. It will facilitate to binocular inspection if need;
2. it will not change the carrier tape width, pitch size, hole size;
3. It will not impact customer existent feeding process condition.

THANK YOU
