Control No. PCN-11382

PART NUMBERS AFFECTED:

PKS603	PKS604	PKS605	PKS606	PKS607	TNY375
TNY376	TNY377	TNY378	TNY379	TNY380	

TYPE OF CHANGE:	Product Discontinuation
LAST ORDER DEADLINE:	31-DEC-2014
FINAL SHIPMENT DATE	31-DEC-2015

Dear Valued Customer:

Power Integrations is committed to providing the highest levels of quality and service to our customers. This includes providing timely and relevant information on product availability.

The ongoing shipment volume of our PeakSwitch and TinySwitch-Peak product families has declined to very low levels and, due to the volume-intensive nature of wafer fabrication, it is necessary to begin the process of discontinuing these products. Our primary goal is to ensure that our customers experience minimal impact through the end-of-life transition for these parts.

Power Integrations and our distributor partners will continue to support the PeakSwitch and TinySwitch-Peak product families through 31-December, 2014, after which the products will not be orderable. For any applications now in late-stage design, our field sales teams will be happy to assist you to modify your design with a suitable replacement product.

Thank you for your prompt consideration of this notice.

Sincerely,

Eric Lutter
Sales Operations Manager
Power Integrations Inc.
